The RelaxoPet® SENSE fragrance pods do not drip. They are made of high-quality polyethylene in a special vacuum process and contain only natural oils without any other additives. If your dog has swallowed a fragrance pod, this is not a threatening situation because the pure polyethylene material, from which the fragrance pod is made, can completely be dissolved by the dog's stomach acid. Nevertheless, please consult your veterinarian.

The RelaxoPet® SENSE fragrance pods are not suitable for children.  
Keep RelaxoPet® SENSE fragrance pods out of reach of children and animals.

Please dispose the used fragrance pod properly in the appropriate waste.
